
Mission suggestions

Well, I was bored, so I tried to come up with some new missions! :D

"Build a fence to stop the tsunami!"

(good) Get some iron fast from somewhere: telekinesis, superconcentration.

(good) Melt the iron to make a strong structure: chi blast, fire teacher.

(neutral) Check the result: investigation, health 70%.

"Help people out of a burning locale"

(good) Get on the roof of the building: levitation, psychic teacher.

(good) Start putting down the fire from your way: hydrant, advanced tactics.

(good) Find the lost children: light athletics, investigation.

"Save the paratrooper from getting smashed into the ground."

(good) Catch the guy: flight, 75% health.

(good) Try to not defy the physic laws: advanced engineer, earth teacher.

(bad) Have fun with the media: butt, hypnosis.

Yikes! I just noticed that I left BADNESS out of my post, so I'll make a bad mission as well.

"Commit a kidnapping"

(bad) Kidnap the president by taking his wife as a hostage: usage of laser pistol, 80% health

(bad) Take out the guards that surround you: rotating kick, freezing ray.

(bad) Get in way of the flamethrowers to get away: training at 10G, health 80%.

(bad) Drive efficiently to the hideaway: advanced tactics, superconcentration.

(bad) Get the ransom: hypnosis (140%).

Hope you like them! I don't know how to think bout the glory and experience requirements, so I'll leave that away.

Great ideas. Missions are well balanced in glory and experience, I think, but there's a lack of them when we look for 50-60 of glory and more. So we need missions from that level on, and of course skills used must be balanced with the glory and experience requested. I need some time to work on it.

Hey Bep!

Can we get the missions more often? :(

I can hardly join any missions and I don't have any I could do (while gaining glory).

I was thinking of more missions like Find Elvis and Marilyn, as not just two people can do them....

You're right, I've been very busy and I had no time to increase the number of missions. The problem actually is that mid-high level missions are few.
