
Potion bug

Posted by SuperMungo - 2008/12/13 01:35

Something strange has happened. I had three Panoramix potions and used one in a fight. After the fight I had four potions! One of them gives an error message when I click on it:

Fatal error: Allowed memory size of 50331648 bytes exhausted (tried to allocate 43515863 bytes) in /home1/herogame/public_html/hero/functions.php on line 1025

I don't know what will happen next time I try to use one.

The same potion was used again. I can't shut it off. I guess I will use the same Panoramix potion in every fight until this is fixed.

i've three potions, but i bought just one... :P
Same problem!

I've got a potion bug as well.
Although I've bought 2 potions, I still have 2 potions. But the first potion gives text:

Fatal error: Allowed memory size of 50331648 bytes exhausted (tried to allocate 43253725 bytes) in /home1/herogame/public_html/hero/functions.php on line 1025

I've used same potion in lots of fights.

The same happens to me, has this game been abandoned by its developer? :(

No it has not been abandoned.
It's xmas season, every family man is busy at these times. And now new year's coming.

Are you going to tell me that I'm the only fool who has 3 potion bought on the bazaar instead of cloning them?

I don't need to clone them as I don't have any fights :P
And I wouldn't anyway x_x

You're always lucky... I've got this problem only with panoramix, not with the pill nor the belt (and i've used them all)

Anyway this bug is very strange since isn't happening always, but only sometimes. We should try to understand what cause it.

I have a bugged potion too =/

I guess it's caused by using more than one of them at a time
